Endurance Shutters

When only the best will do, Endurance shutters deliver. Designed for strength, style, and full customization, they combine timeless wood charm with all-aluminum durability. Exclusive features—like bead mould trim, customizable louver spacing, and the industry’s only all-aluminum arched and closed-louver designs—set them apart. No warping, no maintenance headaches—just shutters built to last a lifetime.

Endurance raised panel lower with small, closed louver upper and faux control rod in bi-fold configuration

Endurance raised panel with divider rail

True Louver shutters with eyebrow and full radius arches

Keep your space cool and private with Bahama shutters. Built from heavy-duty aluminum, they offer shade, airflow, and a polished, low-maintenance look.

Your home deserves shutters that work as hard as you do. Endurance shutters combine strength, style, and low maintenance—because no one has time for warping, rotting, or repainting. Crafted from premium aluminum with our proprietary beaded frame, these shutters capture the charm of wood without the headache. Manufactured using an adhesive-free assembly, each shutter is precision-engineered for durability and longevity. The choice of powder-coated finish ensures a sleek, long-lasting beauty with minimal upkeep. Whether you choose raised panel, flat panel, or louvered designs, every Endurance shutter is custom-built to your specifications and available in a wide range of colors and finishes. Built to last, designed to impress—because your home deserves the best.

What
Customers
Say

“The quality and service is second to none. I highly recommend.” -Leigh T.

Key West Shutters

Let your creativity take center stage with Key West shutters—where customization meets coastal charm. With louver styles, divider rails, and 200+ powder coat colors, they're designed to match your vision. Aluminum shutters so sleek, they could be part of a spy movie. Mission: Impossible to resist.

The Key West line offers sleek, modern design with the strength of aluminum. Clean lines, contemporary appeal, and zero upkeep make it perfect for homeowners and designers who want effortless style that lasts.

Sleek, stylish, and built to last—Key West shutters bring modern design and durability together. With endless customization, they're made for homes that stand out.

Key West Shutters

You have a vision—Key West shutters help you bring it to life. With clean lines, flat stiles and rails, and a modern, minimalist aesthetic, these shutters are made for projects that demand both style and durability.

Precision-crafted from premium aluminum, every Key West shutter is built with adhesive-free construction, meaning no warping, no rotting—just long-lasting performance with a flawless finish. Each piece is cut, assembled, and then powder-coated in-house, ensuring quality from start to finish.

Customization is at the core of the Key West line. Choose from louvered, flat panel, or mixed designs, then tailor details like louver spacing, substiles, and over 200 powder coat colors to match your project's aesthetic. Whether designing for a modern masterpiece or a coastal retreat, Key West shutters deliver the perfect finishing touch.

What
Customers
Say

"Genuinely interested in producing the best quality shutters for our house"
- Mellisa S.

Revere Shutters

Upper Left: Revere flat panel shaker
Upper Right: Revere raised panel
Lower Right: Revere shaker with beaded panel

Your home reflects what matters most—heritage, craftsmanship, and lasting quality. Choosing Revere shutters isn't just about style; it's about honoring tradition with durability that lasts. You love the classic charm of wood, but you need shutters that won't warp, crack, or rot. Crafted with a one-piece composite frame, Revere shutters provide the richness of authentic wood without the maintenance. Built to withstand time and weather, they're an investment in both beauty and longevity, just like the home you're creating.

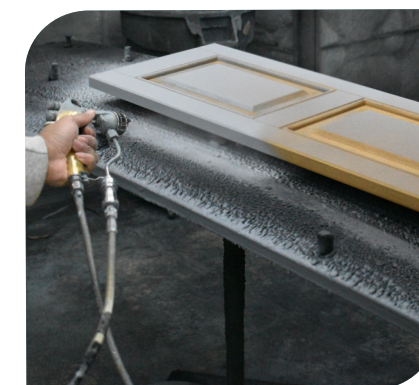

Revere Shutters

Engineered from solid one-piece composite, Revere shutters are built for durability and refined detail. Designed to resist warping and moisture, each shutter is precision-crafted for a flawless fit, offering a classic look that stands the test of time.

Classic charm meets modern durability—Revere shutters capture the beauty of wood without the upkeep. Built to last, designed to impress.

A home with Revere shutters isn't just about curb appeal—it's about lasting craftsmanship. Each shutter is made to order, crafted from engineered composite that resists moisture, rot, and pests for low-maintenance durability. No mass production here—just precision-cut panels, hand-assembled for a flawless fit. Finished with authentic hardware and flawless finishes, Revere shutters capture the charm of wood without the upkeep. Your home tells a story—make sure it's one of timeless elegance and unmatched durability.

Bahama Shutters

Shade, privacy, and effortless style—Bahama shutters do it all. Designed with coastal charm and everyday function, they block harsh sunlight while keeping your space cool and breezy. Built from durable aluminum, they're made to withstand the elements while elevating your home's look.

Cool shade, coastal style—Bahama shutters offer privacy, ventilation, and lasting durability. Built for the elements, designed for effortless living.

Engineered for durability, our Bahama shutters are built from high-quality aluminum to withstand the elements. Precision-crafted for lasting performance, they provide relief from harsh sun while enhancing your home's exterior with a clean, sophisticated look.

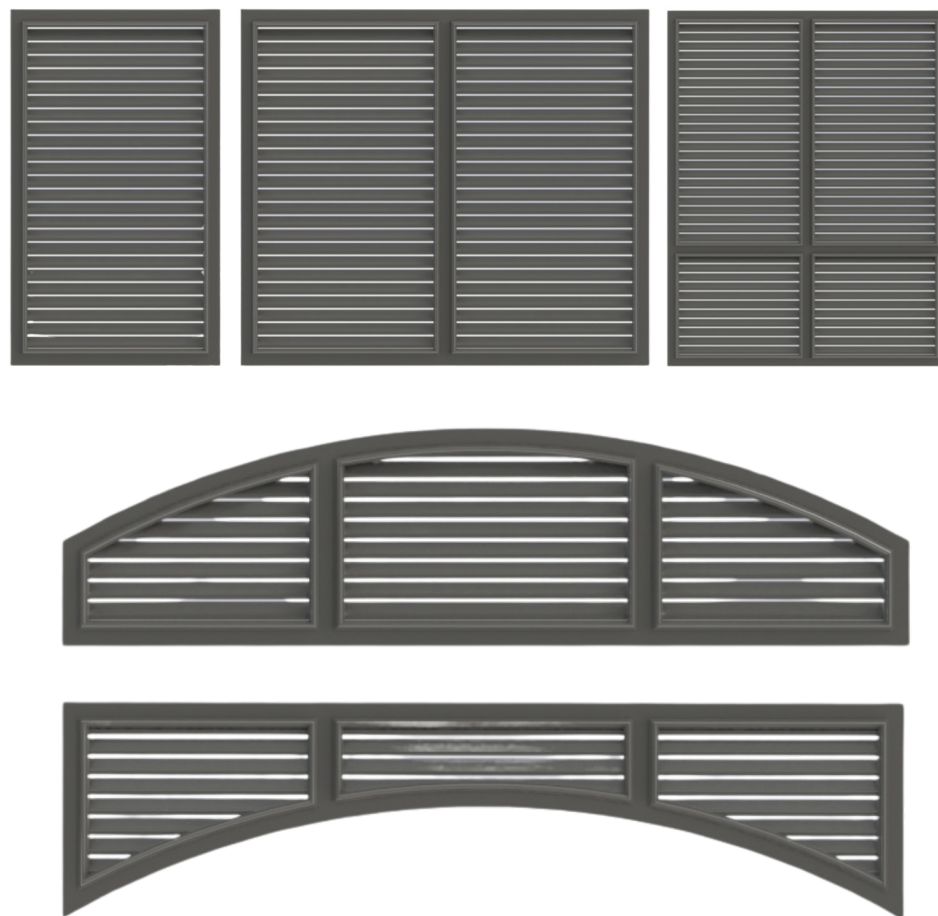

The sun can be relentless, but your home shouldn't have to suffer for it. Bahama shutters offer the perfect balance of shade, privacy, and ventilation, allowing just the right amount of light while keeping your space cool and comfortable. Designed for durability, they're aluminum shutters so tough, even the most determined neighborhood raccoon would give up trying to pry them open. Whether you're looking to reduce glare, add character, or create a more enjoyable outdoor space, Bahama shutters provide long-lasting protection with a refined, custom look that elevates your home.
